Lieuvin PAYS D'AUGE TOURIST bike rides

NORMANDIE

LEGEND

The department represents more than 200 km of marked cycle routes. Each color indicates the difficulty level of the circuit.

Safety tips and equipment

Wearing a helmet (children under 12 years) and a retro-reflective vest is mandatory for everyone, whether they are drivers or passengers on bicycles (put in your backpack). Before you go, check that your brakes and your lighting and signaling devices are working properly. Also check your tire pressure. A warning signal audible from at least 50 meters away is required. As soon as a child under 5 years old can sit up on his own, you can consider transporting him on a bicycle in an adapted and approved child seat, equipped with a safety belt and footrests. Beyond this age, the equipment must be adjusted. Always bring water and snacks, depending on the length of the route. Don't forget to bring sunscreen and hats if necessary. Take a puncture repair kit for longer hikes, as well as a list of emergency numbers. Moreover, when cycling on the road, please apply the traffic rules, ride on the right side of the road on busy stretches and stay in single file.
